BOTNIA-ATLANTICA EN DEL AV DET EUROPEISKA TERRITORIELLA SAMARBETET

De territoriella samarbetsprogrammen (Interreg) handlar om att utveckla samarbetet över nationsgränserna. Syftet är att uppmuntra städer och regioner från olika medlemsstater att arbeta tillsammans och lära av varandra genom gemensamma program, projekt och nätverk. EU:s program för territoriellt samarbete är det viktigaste verktyget för att finansiera den här typen av gränsöverskridande utvecklingsarbete. De finansieras av Europeiska regionala utvecklingsfonden.

Botnia-Atlantica programmet 2014-2020 är ett av dessa Interreg-program.

Genom Botnia-Atlantica finansierar vi gränsöverskridande projekt mellan Sverige, Finland och Norge.

Genom samverkan över landsgränser ska programmet på ett hållbart sätt bidra till en ökad innovationskapacitet, ett stärkt näringsliv, utvecklade natur- och kulturarv samt goda öst-västliga
