

# STUDY VISIT TURKU EDUCATION, EDUCATION, EDUCATION

September 25 - 26, Turku, Finland

*Former British Prime Minister Tony Blair said that there are three solutions for most societal problems; education, education and education. We invite you to Turku, Finland, to learn about our best educational practices, and to plan for future European cooperation within the field.*

*The main themes of the study visit are the attractiveness of vocational education, new learning environments, immigrant integration, and the future's smart educational solutions. The study visit is organized by the City of Turku's Education Division in cooperation with the Union of the Baltic Cities, the School to Work Network, and the StartNet Network.*

*We are excited to be able to welcome you to our beloved city of Turku. Here is some important information concerning accommodations and getting to and around Turku.*

## Arriving and getting around in Turku

<http://www.visitturku.fi/en/visit-turku-en/turku-environs/getting-around>
